

Carolyn Yu

UX Designer

EXPERIENCE

UI/UX Designer

Graphen AI

Apr 2024 - Present | New York, NY

Enhanced user experiences across web and kiosk platforms through innovative design solutions that drive business impact.

- Designed kiosk interfaces with **voice and touch input** plus AI avatars, boosting **task speed by 40%** and improving access for new users.
- Rebuilt an 80+ page website by redefining **IA and visuals**, informed by research and testing, cutting **navigation time by 35%** and improving usability.
- Defined flows and UI for conversational AI from scratch, turning abstract patterns into intuitive prototypes and **reducing prototyping time by 70%**.

UX Design Consultant

Center for Digital Experiences at Pratt Institute

Aug 2021 - May 2023 | New York, NY

Partnered with organizations to design research-driven, impactful solutions that elevated user engagement and improved overall experience.

- Improved UX knowledge for **Brooklyn Museum** staff by **23.7%** through workshops and interactive activities based on deep user insights.
- Increased usability for **Rescue City's** website by **20.75%**, streamlining adoption and donation workflows through strategic IA redesigns.
- Boosted **Kazani Beauty's** user satisfaction by **25.5%** with optimized navigation, trust-building features, and refined purchase flows.

Lead UX Designer

DITL Design X Taipei City Government

Sep 2019 - Feb 2021 | Taipei, Taiwan

Transformed public transportation accessibility for visually impaired users by delivering innovative and inclusive design solutions.

- Directed a **multi-disciplinary team** to develop a bus reservation app, improving usability scores by **25.3%** and delivering a seamless **Auditory User Interface and Graphical UI** experience.
- Designed high-fidelity prototypes for field studies, leading to practical implementation insights and enhanced user accessibility.

UX Designer & Researcher

Department of Design, National Taiwan University of Science and Technology

Dec 2018 - Aug 2019 | Taipei, Taiwan

Advanced VR research by addressing critical usability challenges and enhancing immersive technology experiences.

- Reduced VR discomfort by over **58%** with an innovative wearable haptic device, validated through experiments involving **400 participants**.
- Established new design principles for VR systems, focusing on step-synchronized haptic feedback to improve user comfort during movement.

ACHIEVEMENTS & AWARDS

Amazon Music Design Challenge Award

Mar 2023 | New York, NY

MuDiary: Redefining Music Listening with Memories and Emotions

(Granted \$1,000)

Red Dot Award (Best of the best)

Jun 2021 | Taipei, Taiwan

EyeBus: Bus Reservation Service for People with Visual Impairments

(Acceptance rate: 1.2%)

Pratt Institute Merit Scholarship

Academic Year 2021-2023 | New York, NY

Merit-based scholarship recognizing exceptional academic achievement and performance.

(Granted \$22,000)

Publication of ACM SIGCHI

Apr 2020 | Taipei, Taiwan

WalkingVibe: Reducing VR Sickness and Improving Realism while Walking in VR using Unobtrusive Head-mounted Vibrotactile Feedback

(Acceptance rate: 24.3%)

EDUCATION

Pratt Institute

M.S. Information Experience Design

Aug 2021 - May 2023 | New York, NY

National Chengchi University

M.S. Computer Science

Sep 2015 - Jul 2017 | Taipei, Taiwan

National Chengchi University

B.S. Computer Science

B.S. Digital Content & Technologies Program (Double major)

Sep 2011 - Jun 2015 | Taipei, Taiwan

SKILLS & METHODS

User Testing, Card Sorting, Tree Testing, Affinity Mapping, Competitive Analysis, Qualitative User Interview, Quantitative Analysis, Heuristic Evaluation, Contextual Inquiry, Wireframing, Prototyping, Design System

TOOLS

Figma, Sketch, Adobe Creative Suite, Xcode, SPSS, Arduino, Blender, Unity, HTML/CSS/Javascript, Swift, C/C++
